INTRODUCTION

Total Clarity Wealth Management, Inc. is an investment adviser registered with the Securities and Exchange Commission. Total Clarity Wealth Management offers advice regarding mutual funds, stocks as well as other products such as: variable annuities, bonds, options, government securities, certificates of deposit, Unit Investment Trusts (UITs), Exchange Traded Funds (ETFs) and 529 College Savings Plans. Total Clarity Wealth Management utilizes the clearing and custody services of Pershing, LLC and the Broker/Dealer services of Financial Network Investment Corporation.

ITEM 4 - SERVICES, FEES & COMPENSATION

In its capacity as a registered investment adviser, Total Clarity Wealth Management offers various advisory services as further disclosed in its Part 2A Brochure. The programs offered include a wrap fee program entitled the “*Total Clarity Vision Account*”. The *Vision* account “wraps” all of the transaction charges in with the advisory fee vs. having each transaction charge billed directly to the client’s account.

Advisory Services

The wrap fee program offers clients a fee-based account for which the client will pay a quarterly fee for portfolio review and on-going asset management services and brokerage services. Clients will maintain an account that may contain: stocks, bonds, options, government securities, Exchange Traded Funds (ETFs), Unit Investment Trusts (UITs), 529 College Savings Plans, and/or certain types and classes of variable annuities and mutual funds.

The *Total Clarity Vision Account* program offers clients portfolio review and asset management services on either a discretionary or non-discretionary basis. Discretionary asset management services allow the Advisory Representative to make buys, sells and exchanges within the account as the Advisory Representative deems appropriate, without obtaining the client’s prior consent to the transaction(s). Clients will need to execute a Limited Power of Attorney granting discretionary trading authorization to Total Clarity Wealth Management and the Advisory Representative.

Recommendations are submitted for the client’s approval unless a limited trading authorization is executed by the client and provided to the Adviser for approval. In either case, the Advisory Representative will be reasonably available to the client to provide advice, make recommendations and execute transactions.

Advisory Representatives will gather information on the client’s financial history, goals, objectives and financial concerns and assist the client in developing an asset allocation strategy. The client will establish an account with Pershing, LLC and deposit cash, cash equivalents and/or securities and engage an Advisory Representative to manage the account. Based on the client’s investment objectives, risk tolerance and financial situation, the Advisory Representative will provide the level of services requested by the client (i.e. asset management on a continuous and ongoing basis or portfolio review services). Total Clarity Advisory Representatives currently do not use portfolio models, but rather customize the holdings within each account according to the client’s financial history, status and risk tolerance. Therefore, strategies may vary between clients having the same Advisory Representative, as well as for clients with different Advisory Representatives.

Advisory Representatives will contact clients at least annually, or at the client's request, to discuss the *Total Clarity Vision Account* investment portfolio and to update the client's financial information if any changes have occurred. Clients may request more frequent reviews and may set thresholds for triggering events that would cause a review to take place. Generally, Advisory Representatives will recommend changes to clients' portfolios based on many factors including: shifts in the economy, changes in the management and/or structure of a mutual fund or company in which clients' assets are invested, and market shifts and/or corrections.

Generally, the Advisory Representative who solicited the client will conduct the annual review. Clients are advised they should notify their Advisory Representative promptly of any changes to their goals, objectives or financial situation. Failure of the client to notify the Advisory Representative of any such changes could result in investment recommendations that do not match the client's needs.

Advisory Fees

Advisory fees will be charged in advance on a calendar quarterly basis, based on the account balance on the last working day of the previous quarter. Upon establishment of an account, the fee will be based upon the proportion of the number of days remaining in the quarter, and thereafter, quarterly on the last working day of each calendar quarter. The initial pro-rated fee will be charged in arrears; subsequent fees will be billed in advance. Initial advisory fees will be collected directly from the account, provided the client has given Total Clarity Wealth Management written authorization. Advisory fees for all subsequent periods will be charged to and collected directly from the account early in the quarter.

In the event the account is opened on a day other than the first day of the quarter or closed on a day other than the last day of the quarter, the fee will be pro-rated for the period of time the account was managed by Total Clarity. In the event the account is closed, the fee will be calculated based on the value of the account on the date the client's assets are transferred out of the account (termination date). Total Clarity will refund a portion of the amount of the last advisory fee collected from the client. The refund is calculated on a pro-rata basis, from the start of the quarter up to the termination date.

Clients will be provided with a fee invoice that identifies the advisory fee, the value of the account, and the account(s) from which the fee will be deducted. If the account does not contain sufficient funds to pay advisory fees, Total Clarity Wealth Management has limited authority to sell or redeem securities in sufficient amounts to pay advisory fees. The client may reimburse the account for advisory fees paid to Total Clarity Wealth Management, except for IRA accounts.

Clients may make additions to the account or withdrawals from the account, provided the account continues to meet minimum account size requirements. No fee adjustments will be made for additions or withdrawals within a quarter or for account appreciation or depreciation.

Fees are based solely on account balance(s) and are not based on a share of capital gains upon or capital appreciation of the funds or any portion of the funds. Fees are in accordance with the following blended fee schedule:

Account Size	Maximum Annual Fee
\$0 to \$50,000	2.25%
Next \$50,001 to \$100,000	2.00%
Next \$100,001 to \$250,000	1.75%
Next \$250,001 to \$500,000	1.50%
Next \$500,001 to \$1,000,000	1.25%
Next \$1,000,001 and above	1.00%

Fees are negotiable, may vary from client-to-client and are detailed on the *Total Clarity Vision Account* agreement provided to the client. Fees may not exceed the schedule shown above. The fee schedule is a graduated schedule. More than one fee rate may apply to the account if the total account value is \$50,001 or more at the time of valuation for the purposes of the fee calculation. Clients are advised that Total Clarity retains a portion of the advisory fees equal to 0.04% of the account value at the end of each quarter to cover administrative costs. The remainder of the fee is paid to the client's Advisory Representative of record.

All accounts from one household may be added together to obtain a higher total of account values for fee calculations. In this way, your annual asset management fee may then lower, since it is based on an aggregate value of all accounts within your household, than if the fee for each account was calculated independently of the other accounts . This practice varies by Advisory Representative; so you could pay more or less for management services depending on the Advisory Representative with whom you work.

Costs Associated with a Wrap Fee Account

The *Total Clarity Vision Account* program may cost the client more or less than if the client purchased services separately. Costs that may affect the services if obtained separately or that the client may control if services are purchased separately include trading costs and the asset management fee. Additionally, clients are advised that a wrap fee account, as compared with a traditional commission based account, may be more costly to the client, particularly during periods when trading activity is less. Consequently, clients may find that maintaining the wrap fee account can result in a higher annual cost. During periods when trading activity is heavier, such as when the account is first opened and during periods of increased market movements, wrap fee accounts may result in lower annual costs.

Additional Fees & Transaction Charges

In addition to the advisory fee, a custodial service fee of \$4 per transaction may be applicable for certain mutual funds in *Total Clarity Vision Accounts*. Total Clarity and its Advisory Representatives do not or control these fees, or share in any portion of such fees. Clients are advised that some Advisory Representatives may choose to cover the \$4 service fee for their clients; however, this is up to the discretion of each Advisory Representative. If these costs are covered by the Advisory Representative they are refunded back at the end of each quarter to the account from which the management fees are pulled.

Furthermore, the client may pay additional fees to the mutual fund they purchase. Such fees are compensation to the fund manager and are not shared with Total Clarity Wealth Management. Certain "no load" fund shares may be required to be held for a minimum time period, generally six months. In the event that such shares are redeemed prior to the end of the minimum holding period, they may be subject to a redemption fee. This fee may be assessed by Pershing, LLC, or directly by the mutual fund sponsors as described in their prospectuses. Such fees are compensation to the fund-manager and are not shared with Total Clarity or its Advisors. Clients should read the mutual fund prospectus prior to investing.

Commissions & Sales Charges

Advisory Representatives of Total Clarity are also Registered Representatives of Financial Network, a registered Broker/Dealer, member of the FINRA (Financial Industry Regulatory Authority) and SIPC (Securities Investor Protection Corporation). Advisory Representatives of Total Clarity who are Registered Representatives may receive trail commissions (i.e. 12b-1 fees) for a period of time as a result of directing securities transactions through Financial Network. Load and no-load mutual funds may pay annual distribution charges, sometimes referred to as 12b-1 fees. 12b-1 fees come from fund assets, therefore, indirectly from your assets. 12b-1 fees may be initially paid to Financial Network and a portion passed on to the Advisory Representative.

In addition, for investments that exceed \$1 million into a fund family, Advisory Representatives may receive payments as described in the fund's prospectus, usually ranging from .25-1.00%. In the event you elect to redeem shares out of the fund family within twelve to twenty-four months, depending upon the funds utilized, you may incur a contingent deferred sales charge. Otherwise, these shares will incur no sales charge. The receipt of these fees could represent an incentive for the Advisory Representative to recommend funds with 12b-1 fees over funds that have no fees or lower fees. As a result, there is a potential conflict of interest. Advisory fees will not be offset by any 12b-1 fees received by Total Clarity or your Advisory Representative, except for qualified ERISA plans.

You may be able to purchase the securities recommended by Total Clarity directly or through other brokers or agents not affiliated with Total Clarity.

Potential for Conflicts of Interest

Advisory Representatives recommending clients participate in the *Total Clarity Vision Account* program will receive compensation as a result of a client's participation in the program. The amount of compensation paid to Total Clarity Wealth Management and the Advisory Representative may be more than what Total Clarity and the Advisory Representative would have received if the client participated in other programs available through another broker/dealer or paid separately for investment advice, brokerage and other services. Clients are advised that Advisory Representatives may have a financial incentive to recommend the wrap fee program (i.e., *Total Clarity Vision Account*) over other programs or services.

Total Clarity and Advisory Representatives may buy or sell securities for themselves that are also recommended and bought or sold for Clients. Total Clarity Wealth Management, its officers, directors, employees and Advisory Representatives may not trade ahead of clients or trade in such a way as to obtain a better price for themselves than for clients.

ITEM 5: ACCOUNT REQUIREMENTS & TYPES OF CLIENTS

Minimum Account Size

Total Clarity requires a minimum amount of assets to be held in an account for the purpose of obtaining asset management services. A minimum deposit of \$10,000 (cash or securities) to a brokerage account is necessary in order to participate in investment advisory services.

However, under certain circumstances, Total Clarity may waive the minimum investment size requirement and accept clients with less than \$10,000. Such circumstances may include but are not limited to, situations in which additional assets will soon be deposited; or when the client has other accounts with Total Clarity. The consolidation of these accounts for the purposes of quarterly fee calculations would bring the value of the accounts closer to a fee schedule breakpoint.

Smaller accounts are defined as accounts holding less than \$25,000 in assets. Clients are advised that performance may be affected more in these accounts due to the difficulties with diversifying smaller accounts and risk controls potentially being compromised. Performance of smaller accounts may vary from the performance of accounts with more dollars invested because fluctuations in the market may have a greater impact.

Total Clarity Wealth Management does not represent, warrant or imply that the services or methods of analyses used by Total Clarity can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to major market corrections or crashes. No guarantees can be offered that a client's goals or objectives will be achieved. Further, no promises or assumptions can be made that the advisory services offered by Total Clarity Wealth Management will provide a better return than other investment strategies.

Clients

Total Clarity generally offers the *Total Clarity Vision Account* program to individuals, non-ERISA retirement plans, trusts, estates, charitable organizations, corporations and other similar business entities.

ITEMS 6, 7, & 8: PORTFOLIO MANAGERS

This section is not applicable to Total Clarity. *Total Clarity's Vision Account* Wrap Fee Program is proprietary to Total Clarity and does not offer access to other portfolio managers. The "portfolio manager" in this instance is the client's Advisory Representative.

This is discussed in more detail in section 4A on page 5. Each Advisory Representative is responsible for ensuring timely reviews and suitable recommendations. The level of experience of Advisory Representatives will vary.

You will be provided statements at least quarterly directly from Financial Network. These reports are provided by Pershing for Financial Network. Additionally, you will receive confirmations of all transactions that occur within your account directly from Financial Network or Pershing.
